They include: • Vocabulary words which will be featured in the texts, and further developed and reinvested in the project's exercises and dictations; • Various texts on subjects related to the theme of the project's current edition; • Activities that help the student discover, understand and apply concepts related to the theme, as well as vocabulary words associated with it.

c. Trustee Report

Received rapid tests and medical grade masks. Running into many positive covid tests and covid symptoms now. Teachers and staff need to be commended for putting the kids first and doing what needs to be done for the best of the students. At next meeting will be discussing economic development and sustainability of rural areas and other concerns such as mental health and in small communities. We struggle to get the appropriate professionals here. School council survey was a success. Regular board meeting will be February 15th at 1pm. Will be live on youtube cancel at 1:45 and will be recorded so you can go back and watch as well.

7. New Business

a. ASCA Conference and AGM –Now the meeting will be by zoom only and not in person. Last year it did work well, hopeful for this year. We can send 2 people from each council. We will take names if anyone is interested and HPSD will pay the registration for the conference on April 22 and 23rd, and AGM April 24th. Anyone who is interested please let us know. Schedule, speakers and program and resolutions have not been released yet. We will look at the resolutions once posted.

b. COVID Re-entry for Public Schools –Kristina: Huge thanks to the school system for doing what they are right now. As a parent I felt left in the dark. Important to test with symptoms. When it is coming to emails, I am finding there is a big gap –notified February 2 that my daughter was a contact of covid on January 28th. Wondering if there is something we can do to help us be more aware of this. Blended learning –what a great idea. Having that information readily available would be great. Just some ideas that I had and wondering thoughts from other parents.

Diane –contact tracing is completed through HPSD. We are notified as soon as possible but sometimes there is a 4-5 day delay. In the teacher newsletters we are sure to put in there that we appreciate you letting us know. Then we can reach out and find out what the kids are able to do and how we can support them. The e-learning is through the government –can look into.

c. School Council Engagement Grant –Tara –on December agenda as well. Now more information. Received \$500 for each school division. The money has to be spent before the end of the year. We have to make a motion at a meeting before we can spend it. There are restrictions about how we can spend it –on the website. Ex. Workshops. Anything that can allow parents to be more involved in the kids schooling. Any ideas? Nicole – Indigenous day in June – any elders we invite are generally paid – could this be on the list? Carolyn –help teach kids and parents how to appropriately use social media.

d. Webinar on online dangers –for tomorrow, will share link. Cyber Bullying. Wanted to bring it to everyone’s attention. 6-7pm EST tomorrow February 8th, Free. Link in chat and on school webpage. ASCA has an event with a similar topic available the end of February/early March.
