September 13, 2016

Dear Superintendents;

Another exciting school year has started in your school district. Parents, teachers, principals and most importantly students are all looking forward to a successful, collaborative school year.

The Alberta School Councils' Association is ready to assist your school councils (principal and community) with whatever tools necessary to ensure a successful school year that supports your school district.

Attached is the schedule of topics for our *Webinar Wednesday* series offering education information and skill development for school council members, principals, system leaders and school board members. The interactive webinars are held twice each Wednesday for one hour at convenient times (9:30am/8:30pm) and are accessible through any internet device. This year Careers, the Next Generation, Edmonton Regional Learning Consortium, as well as Alberta Education will host some of the information webinars.

School community engagement is a major role of a school board and superintendent. Supporting your parents in understanding their legislative role on school councils will ensure a successful partnership and school year. Please promote the ASCA webinars in your districts so that your parents and principals know they can access information quickly and easily with a facilitator to answer all their questions. Ideally, the link to these webinars could be posted on the school council portion of your website for parents to access.

We look forward to continued partnership with you so that your school councils can champion your district for another exciting school year.

Kind regards,

Jacquie
